JOIN IN ON EXCELLENCE

Be a Part of SLT-MOBITEL Transformational AI & Data Business team

We are now looking for high caliber results-oriented and qualified individuals as AI & Data Business Specialists to engage in our AI transformational migrations operations as we are on a mission to lead digital innovation through excellence in AI, Data, and Security Engineering. Whether you're passionate about managing AI programs, building intelligent systems, designing secure infrastructures, or architecting large-scale data platforms, SLT-MOBITEL is the place for you to bring your skills to life. Ideal candidates should have experience with major AI platforms, strong analytical skills, and excellent communication to support diverse client needs.

We are looking for candidates for following position.

DATA SCIENTIST

We are seeking a strategic and technically adept Data Scientist to lead the design and evolution of our enterprise data platform. The right candidate will drive the architecture and governance of domain-specific data models, ensuring scalable and secure data integration across business units.

Key Responsibilities

- Manage and lead cross-functional data science projects end-to-end. Partnering with Data Engineering, Finance, and other teams, you'll self-serve data to derive critical insights.
- Scale causal inference models to measure the impact of different actions on user growth and financial outcomes.
- Architect customer/business segmentation frameworks to unlock tailored growth strategies and expand lifetime value.
- Automate standardized reporting and analysis by building data products and/or agentic solutions.
- Support product pricing and other business decisions with ad hoc analytics.
- Design and deliver dashboards for leadership to track key performance indicators and enable optimal decision-making.

Desired Skills / Competencies

- Degree in Computer Science, Artificial Intelligence, Data Science, or a related field.
- 3+ years of experience in a highly quantitative role, ideally as an early data scientist at a hyper-growth company or research organization.
- Proficiency in Python, SQL, Tableau, and other analytical tools.
- Strong analytical skills and experience working with large, complex datasets.
- Proven ability to distill complex data into actionable insights for leadership.
- Ability to independently initiate complete projects, owning them end-to-end.
- Excellent communication storytelling skills when presenting data insights.
- Exceptional attention to detail commitment accuracy..

Other Condition

- Appointments will be on contract basis for two years period.
- Salary is negotiable; successful candidates will be offered a competitive and attractive compensation package.
- Only shortlisted candidates will be contacted for further evaluation.

Method of Application

Application should be submitted via online. Complete the online application using the link below, submit with curriculum vitae together with scanned copies of birth, educational and other relevant certificates within 14 days of this advert.

Applications without supporting documents will not be entertained and applications sent by post will not be accepted.

Apply online via: <https://careers.slt.lk/> or visit www.sltmobitel.lk (careers page)

Sri Lanka Telecom PLC is an equal opportunity employer and any type of canvassing will be a disqualification.
