

**BUILD YOUR CAREER
WITH CARGILLS BANK**

JUNIOR SOFTWARE ENGINEER

Embark on a journey of growth with us. Cargills Bank has been committed to providing sought-after, innovative and technologically advanced financial solutions to Sri Lankans young and old. As we continue to enhance our in-house systems and digital platforms, we are looking for a passionate and results-driven Junior Software Engineer to join our dynamic development team.

KEY RESPONSIBILITIES

- Develop, test, and maintain in-house developed applications ensuring performance, quality, and responsiveness
- Collaborate with various departments across the bank to gather and understand project requirements
- Ensure compliance with Software Development Life Cycle (SDLC) standards to meet audit and regulatory expectations
- Support integration and development of web services using SOAP and REST APIs
- Maintain and optimize database structures and queries using Oracle, MySQL, MS SQL, and DB2
- Contribute to the enhancement of reporting and business intelligence solutions
- Document processes and changes to ensure knowledge sharing and system continuity
- Work independently and proactively to meet project deadlines and resolve technical challenges

EXPERIENCE & QUALIFICATIONS

- A degree or equivalent qualification in Information Technology, Computer Science, or a related field from a recognized institution
- 1 to 3 years of hands-on experience in web and software development using ASP.Net, C#
- Knowledge of web technologies and integrations using SOAP and REST APIs
- Proficiency in Relational Database Management System (RDBMS) tools such as Oracle, MySQL or MS SQL
- Experience with BI tools and WSO2 will be an added advantage
- Excellent problem-solving, analytical, and debugging skills
- Ability to work both independently and collaboratively

Interested candidates are invited to forward their CVs to career@cargillsbank.com mentioning the post applied for, in the subject line of the email on or before **06th August 2025**.
