## **Assistant–Quality Assurance ROLE**

The QA Assistant supports routine quality testing, documentation, and basic investigations in line with established quality and food safety systems. The role requires adherence to safety and hygiene standards and offers an opportunity for a motivated individual with laboratory knowledge to gain hands-on experience in a shift-based food and beverage manufacturing environment.

### **RESPONSIBILITIES**

- Support quality testing and inspection of raw materials, in-process samples, and finished products in line with approved sampling plans, QFSMS requirements, and safety standards.
- Accurately record, compile, and report quality data, and assist in basic investigations and root cause analysis of product or process non-conformities under supervision.

- Adhere to established QA systems and procedures, demonstrate expected behaviours, and contribute to achieving departmental quality KPIs and targets.

### **REQUIREMENTS**

- A Diploma or equivalent qualification in Biological / Food Sciences or a related field, with basic knowledge of chemistry, microbiology, laboratory testing, and exposure to quality systems such as ISO 9001, ISO 22000, and HACCP (ERP exposure is an advantage).
- Good communication skills in English and Sinhala, with a positive attitude, strong discipline, teamwork skills, and a passion for learning and continuous improvement.
- Willingness to work on a shift basis and perform effectively under pressure; prior experience in the food and beverage industry will be an added advantage.
