

VACANCY FOR DESIGN ENGINEER Assignment Basis

MAHAWELI CONSULTANCY BUREAU

Mahaweli Consultancy Bureau is an organization under the purview of the Ministry of Irrigation incorporated for the objective of providing Consultancy & Support Services for Local & International clients. We have been in business for 23 years and during the time we have grown to be a reputed organization by successfully completing high priority Consultancy and Support Services for Government and Non- Government Organizations in Sri Lanka. Our vision is to rank our company among the top ten entities in South Asia by the year 2030.

We invite suitably qualified and confident individuals to apply for the Design Engineer position to support our National Community Water Supply Project-related initiatives and contribute towards the achievement of our organizational objectives. The selected candidate will primarily be engaged in National Community Water Supply Project-based assignments; however, the candidate will also be required to actively participate in other projects and programs undertaken by the Mahaweli Consultancy Bureau as and when required.

JOB DESCRIPTION

- Prepare detailed engineering designs for community water supply schemes, including intakes, treatment units, storage tanks, and distribution networks.
- Develop drawings, specifications, BOQs, and cost estimates.
- Ensure compliance with national standards, environmental requirements, and project guidelines.
- Provide technical guidance during construction and resolve design-related site issues.
- Assist in preparation of tender and contract documents.

EDUCATIONAL QUALIFICATIONS

- Bachelor's Degree or equivalent in Civil / Structural Engineering from a recognized university.

OTHER QUALIFICATIONS

- Registration with the Engineering Council of Sri Lanka (ECSL) as a Registered Engineer is mandatory.
- Charter Membership of a recognized professional engineering institution preferred.
- Software knowledge, fluent in WaterGem
- Proficiency in design software such as AutoCAD, ETABS, SAP2000, or equivalent.
- Knowledge of Sri Lankan design standards and rural water supply guidelines.

EXPERIENCE

- Minimum 03 years of relevant experience in engineering design and infrastructure implementation.
- Minimum 05–07 years of post-qualifying experience in engineering design.
- Experience in designing of water supply systems
- Experience in government or donor-funded water supply projects preferred.
- Proven experience in preparation of engineering designs, drawings, BOQs, specifications, and technical reports.

APPLICATION GUIDELINES

Interested candidates are invited to submit their Curriculum Vitae (CV), together with a covering letter, clearly indicating "Design Engineer" in the subject line, via the official online application portal of Mahaweli Consultancy Bureau at <https://mcb.gov.lk/career-ncws/>. **Only applications submitted through the above link will be considered.**

Please note:

- Only **short-listed candidates** meeting the above criteria will be contacted for an interview.
- **Any form of canvassing will result in disqualification.**
